For a \$42,000 bond I'd recommend that SP put up collateral, perhaps a CD, acceptable to the City. Our balance sheet is strong enough.

Josh, are you sure the requested bond amount is \$42,000. That seems quite low to me.

Subject: RE: Pico Station Improvements Performance Bond

Hi Everyone,

I'm working on getting the performance bond for the Pico station lighting and the application forms I have received through our insurance company and the company I was connected to through Shelby are asking for personal indemnity from owners. I spoke with the agent from one of the bond companies and she said this is required for all bonds. I'm not sure how to apply as a non-profit and without personal indemnity from owners. Does anyone know anything about this and/or have any suggestions about how to proceed? I have attached the bond forms sent to me if that is helpful. Thanks!

Subject: RE: Pico Station Improvements Performance Bond

Shelby,

Thanks for following up. Yes – I spoke with Stacy and she said isn’t able to place single bonds outside of a program currently written through Marsh, but she gave my contact info to another surety who she said will contact me to discuss (haven’t connected with him, but Stacey said because of the Thanksgiving holiday he probably wouldn’t be available until Monday). I also spoke with the BID’s insurance representative from Arroyo Insurance and they said they could do it. They’ve sent me some forms to fill out on the BID’s finances (attached) and said if our finances are strong then the cost should be 4-5% of the bond cost. I’m planning on getting a quote from the contact through Stacey before going forward with the paperwork through our insurance company.

Please let me know if any of what I’ve said doesn’t sound right to you or you have any other input and thanks for your help – much appreciated!!

Hi Everyone,

Griffith company has sent me the attached paperwork for a performance bond in the sum of \$42,000 that is required by the Department of Public Works for the street lighting aspect of the Pico station improvement project. Does anyone have experience doing this for a construction project? Do we have a surety that we have used in the past or that anyone has experience with? Please let me know. Thanks!
